Group 2011 Outlook

Revenue

The overall Croatian economic recovery has been slower than anticipated with the unfavourable development of key indicators that impact demand for the Group's services - high unemployment and falling disposable income.

Subject to a strong tourist season in Croatia and recovery in the national economy, the Group expects to maintain 2011 revenue at the 2010 level through a combination of its focus on exploiting new growth opportunities and maximising existing ones.

EBITDA before exceptional items

As a result of the revenue strategies outlined above, efficiencies gained from the successful restructuring in 2010 and continuing strong cost controls, the Group expects that - subject to recovery in the national economy - 2011 EBITDA for the year as a whole should be above the 2010 level.

CAPEX

While the current regulatory regime remains a disincentive to T-HT's potential investment in fiber infrastructure, the Group expects 2011 capital expenditure to be lower than 2010. However, T-HT will continue to invest in its fixed core network transformation and service platforms development, as well as in infrastructure necessary to support the growing demand for mobile broadband.

Regional Expansion

The Group continues to monitor and evaluate expansion opportunities to increase shareholder value.
